

CMS 130: Colorectal Cancer Screening

This measure is only supported by ACO and MVP participation has been removed from the MIPS dashboard. Please use the quality measure dashboard [2101303201].

Description:	<p>Percentage of adults aged 45 – 75 years of age who had an appropriate screening for Colorectal Cancer. This measure is only supported by ACO and MVP participation.</p> <p>Appropriate screenings are defined by any one of the following criteria:</p> <ul style="list-style-type: none"> • Colonoscopy during the measurement period of nine years prior to the measurement period. (Every 10 years). • Flexible Sigmoidoscopy during the measurement period of the four years prior to the measurement period. (Every 5 years). • Computed tomography (CT) colonography during the measurement period of the four years prior to the measurement period. (Every 5 years). • Lates Fecal Immunochemical DNA test (FIT-DNA) (Cologuard Brand name) during the measurement period or the two years prior to the measurement period. (Every 3 years). • Latest Fecal Occult Blood Test (gFOBT) or Immunochemical FOBT (iFoBT) during the measurement period annually. FOBTs performed in an office setting do not count. Digital Rectal Exam does not satisfy the measure.
Exclusions:	<p>Patients with a diagnosis or past history of colorectal cancer or colectomy. Patients 66 years or older in long-term nursing home, frailty, or advance illness, including taking dementia medications. Patients who are in hospice or palliative care.</p>
Exceptions:	<p>None</p>
Telehealth:	<p>Encounters are included for measure satisfaction. Screening can be asked, ordered, and documented during a telehealth visit.</p>
Measure Steward:	<p>National Committee for Quality Assurance (NCQA).</p>
Specialty:	<p>Family Medicine, Gastroenterology, Internal Medicine.</p>
Qualifying Encounter(s):	<p>Office Visit, Home Health Services, Nutrition Services, Preventative Care Services, Telephone Visit.</p>

How to Satisfy this Measure: Results Needed

1. Closed Colon Cancer Screening order.
2. External Results:
 - a. **Label HM Cologuard (HM19)**
 - b. **Label HM Colonoscopy (HM4)**
 - c. **Label HM CT Colonoscopy (HM22)**
 - d. **Label HM Sigmoidoscopy (HM3)**

Front Desk Team Member Role Workflow

1. At check-in, have the patient complete the **Authorization for Disclosure of Protected Health Information**.
2. Prior to the appointment, check for an **Open Order**.
 - a. Call the patient to identify if they have **Scheduled the Appointment**.
 - i. If they **have not**:
 1. Review the patient's chart to see if they have any notes for their referral.
 2. Share referral information for the patient to schedule for specialists' appointments.
 - b. After the appointment:
 - i. Confirm they **Attended the Appointment**.
 - ii. Ask for records or send a fax to obtain the records.
 1. If records are in OnBase, the **Document Type** should be tied to the order and labeled as:
 - a. **Cologuard**
 - b. **Colonoscopy**
 - c. **CT Colonography**
 - d. **Sigmoidoscopy**
 - iii. If necessary, scan the external records into the chart following the external scanning workflow below.

Note: Use the external scanning workflow only when records are external and already reviewed by the clinician.

Clinical Team Member Role Workflow

1. During **Pre-Visit Planning**, review open orders for Colorectal Cancer.
 - a. Track open orders for upcoming appointments.
 - i. If there is an **open order**, request patient to schedule and complete.
 - ii. If the **order is complete**, confirm it has closed the **Health Maintenance Topic, Colorectal Cancer Screening**.
 - b. Confirm **completion of an order**.
 - c. **Request records** from referred to clinical/clinic.
2. If there is **no existing order**, order a **Colorectal Cancer Screening** from a SmartSet on the Storyboard or from the Visit Taskbar.

Acceptable Colorectal Cancer Screening tests:

- Referral to **Gastroenterology for Colonoscopy, Flexible Sigmoidoscopy**.
- **Direct Colonoscopy** (Screening without a referral, internal use).
- Lab order for a **Cologuard** to Exact Science.
- Lab order for a **FOBT**.
- Imaging order for **CT Colonography**.

Note: This measure will not be satisfied until the result is added to the patient's chart.

Provider Role Workflow

1. Orders alone will not close the care gap. The order must have results.
2. For patients 45-75 years old, order a Colorectal Cancer Screening based on the criteria above.
3. Once the result has returned through the interface, it will appear in the Labs or Procedures tab of the patient's chart. These results will automatically close the care gap.

Note: This measure will not be satisfied until the result is added to the patient's chart.

Documenting External Results

Use the labeling below to connect the external result to the correct HM test to close the care gap.

Test/Procedure	Additional Test Name	Document Type
Colonoscopy	HM Colonoscopy (HM4)	Colonoscopy
Flexible Sigmoidoscopy	HM Sigmoidoscopy (HM3)	Sigmoidoscopy
Fecal Occult Blood Test	HM FOBT (HM20)	Fecal Occult Blood Test
FIT-DNA (Cologuard)	HM Cologuard (HM19)	Cologuard
CT Colonography	HM CT Colonography (HM22)	CT, Colonography

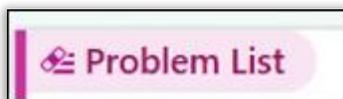

1. From **Media Manager** → click **Ext Results**.
2. Search and select based on the **Test/Procedure** named above.
3. Enter **Ordered By, Order Date**, and the **Result Date**.
4. Click **Create Results**.
5. Choose **+Add New Media**.
6. Select **Document Type**.
7. **Connect the Order** to an encounter.
 - a. **HM Test/Procedure** will automatically be selected.
 - b. Create a **New Encounter**.
 - i. **Encounter type = Orders Only**
 - c. Click **Accept**.
8. Click **Scan** or **Import**.
9. Find the document in your drive → click **Open**.
 - a. The document shows in the **Media Attachment** section.

10. Complete the **Document Information** section.

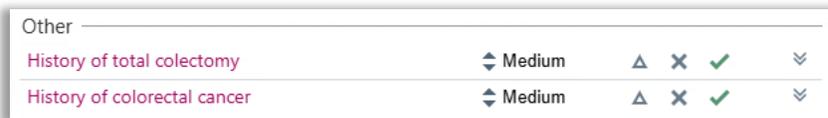

- a. The **document type** and **description** should match.
- b. Ensure the **Received By** and the **Received On** match the document.
- c. The **Result Date** will be what you entered in the **HM Colorectal Cancer Screening** order.
- d. Adding recipients into the **Send Document To** section will send the information to the recipients In Basket.
- e. Click **Accept**.

Documenting Exclusion

1. From the **Problem List**.

2. Add **History of Total Colectomy** or **Colorectal Cancer**.

3. From the **Surgical History** documentation **Total Colectomy**.

Past Surgical History		
Procedure	Laterality	Date
TOTAL COLECTOMY		12/05/2024 (67 y.o.)

4. Add **Hospice or Palliative Care**.

5. Add a current diagnosis of **Frailty**:

- Patients 66 and older with Advanced Illness or Frailty.
- Taking dementia medications (Donepezil, Rivastigmine, Galantamine, Memantine).
- Living in long-term nursing homes.

The screenshot shows the 'Problem List' interface. At the top, there is a search bar labeled 'Search for new problem' with a '+ Add' button and a 'DxReference' link. Below this is a 'Diagnosis' section with a 'Sort Priority' option. A red box highlights the 'New Problem' form, which includes the following fields:

Problem:	<input type="text" value="Frailty"/>		
Display:	<input type="text" value="Frailty"/>		
Priority:	<input type="text"/>	Noted:	<input type="text" value="3/8/2023"/>
Class:	<input type="text"/>	Resolved:	<input type="text"/>
